

P(egs) *bioinformatics* 2020

A short introduction to bioinformatics skills and tools

Have you ever thought “**I need more computer skills for my research**”
but didn’t know where to start? **You are not alone!**

This short series by computational postgrads & postdocs
will introduce some of **the key bioinformatics skills and tools**
essential to modern research.

Michael Smith Lecture theatre
Every other Friday @ 3PM (No sign up required!)

- **24th Jan** **Introduction to Coding, Graphics in R**
- **21st Feb** **Introduction to Python**
- **6th March** **Bioinformatics Good Practice:
Data Organisation & Consistency**
- **20th March** **Linking bioinformatics to health
data outcomes**
- **3rd April** **Version control**
- **17th April** **Analysing data with GSEA, Networks
and Pathways**
