# P(egs) *bioinformatics* 2020

## A short introduction to bioinformatics skills and tools

Have you ever thought **"I need more computer skills for my research"** but didn't know where to start? **You are not alone!**

This short series by computational postgrads & postdocs will introduce some of **the key bioinformatics skills and tools** essential to modern research.

## Michael Smith Lecture theatre
## Every other Friday @ 3PM (No sign up required!)

- **24th Jan**        **Introduction to Coding, Graphics in R**
- **7th Feb**         **Analysing data with GSEA, Networks and Pathways**
- **21st Feb**        **Introduction to Python**
- **6th March**       **Bioinformatics Good Practice: Data Organisation & Consistency**
- **20th March**      **Linking bioinformatics to health data outcomes**
- **3rd April**       **Version control**
